CITY OFFICERS.

J. A. FISHER, of Los Angeles

For City Justice.

W. L. WALKER, of Los Angeles

For Constable.

T. A. DOMINGO

OUT OF THE WOODS.

The attacks upon Governor Woods's character have been so persistent and he has been subjected to so many unfavorable criticisms at the hands of the press and speakers of the opposition, as to demand some attention at the hands of his friends. That there is not even the semblance of truth in any of the charges made is of no consideration to those who aspire his character, and that this assertion is susceptible or proof will perhaps avail little with those who made the charges nevertheless the proof is at hand, and a gentleman of this city, a life-long Democrat, who was a resident of Oregon and cognizant of all that transpired during Mr. Woods's administration as Governor, for the sake of truth and fairness, in an interview yesterday sweeps away the wholent-work of fabrication and gives the lie to the assertions of the Governor's corruption in office. The gentleman referred to is Prof. Redway, of the Normal School, a gentleman who has attained a high standing in this community by his social, educational and scientific attainments. The interview was as follows:

Reporter—I learn that you are an acquaintance of Governor Woods, and was a resident of Oregon during his administration of the office of Governor.

"Yes, I have been acquainted with him since 1868."

Reporter—Have you read the charges made against him in the newspapers? I have not read anything definite, but I have not read anything definite. During four years acquaintance, I have frequently heard him criticised politically; in fact, as correspondent of a Democratic paper, I have on more than one occasion written a philippic against him, and have never until this campaign known his integrity of character assailed.

Hept.—Where were you, Mr. Redway, at the time these iniquities are said to have taken place?

"I was a resident of Oregon. At the time of the election, for some reason or other, we did not reach Salem until the time prescribed by law had passed by, and the official count was made without them. Woods was declared elected and the Democrats were greatly incensed, although the legality of the election was never questioned. In consequence we made a grand rally four years afterward and elected Grover for Governor, now United States Senator."

Report.—What kind of an administrator was Woods?

"Well, it was certainly a good one. The Republicans claim that it was the best the State ever had. The only bad feature about it was the defalcation of Sam May, the Secretary of State. May was a first-class carpet-bagger, scalawag, and a confirmed operator, connected with Gov. Woods, to my certain knowledge, never had anything to do except officially; they were not even on speaking terms. Afterward, while Woods was Governor of Utah, learning that May was in the territory, he came down to Oregon, where he was tried and acquitted through a legal technicality. Woods had nothing whatever to do with it, and I have never heard his bitterest enemy make any of this statement. Woods will the prove it."

The new Legislature, in 1870, was, of course, Democratic. A committee was appointed to investigate Woods's affairs.

The committee were in session till the Legislature adjourned, and their report was handed in to the Legislature on Oct. 18, 1872, at which time I presented the whole session and heard the report of this committee, which has become historical as the famous "smelling committee." The substance of the report was, that May was a defaulter to the tune of thousands of dollars, and Woods was bound to the amount of one office chain. The committee also presented a bill for services rendered which was not, I believe, allowed. The report, after being pretty thoroughly ridiculed, was filed away with other legislative documents, and charge whistled over in the last.

His political course was severely criticized, but nothing was charged against him that could ever reflect upon his character as an honest man. Certain it is, the report of the committee was never transmitted to the General Assembly, and with that decision, So far as May's defalcation is concerned, Governor Woods could not possibly have anything to do with it, as May was responsible to the Legislature only."

Reporter—These charges are made

by a man named Noltner; do you know him?

"Yes; he was foreman of the State printing office in 1870, I think."

Reporter—What is his standing in Oregon?

"He would prefer not to express an opinion. You can learn his history by referring to the records of the State Printer, Mart. Brown, who had him to do with."

Reporter—Are there any other facts concerning these charges that you can give?

"Nothing that I can think of. Persons capable of dishonesty. Mr. Shieffelin and Mr. Holman of this city were both residents of Oregon at that time. I believe they will corroborate what I have said."

THE FIGURES.

The Express of evening makes the statement that "the records of Joe Jose simply contain an assessment against Governor Woods of \$1600," and that "there say is a mortgage of \$1600 against the property, and as to clinch it says it knows the man who holds it." Then it says, if this is true Governor Woods pays no tax in real estate in Santa Clara county. It is too bad to spoil a pretty story, but it would be better if, before making a statement, the truth were ascertained. It would prevent embarrassment. Now, we are in position to give the exact figures of both Gov. Woods' and Mr. Tully's assessments for the years 1881 and 1882. Here they are: For 1881, Geo. W. Woods' assessment was \$3265; P. B. Tully's for the same year, \$870. For 1882, Woods, \$4085; Tully, \$4185. This proves the Express statement untrue, and in future, in particular, and its other statements will of necessity be taken with many grains of allowance.

NOT EXPLICIT.

The President remained at home yesterday morning and had just a solitary call, but expected an encounter with a newspaper man in the afternoon: Such is the substance of a New York dispatch of yesterday. Now we submit that the associated press must do better than this. That dispatch cost us somewhere in the neighborhood of fifty cents and still it does not satisfy the craving anxiety of the subjects of His Solitary Highness. Our readers clamor to know why the President did not walk out on the dewy lawn, drink in a few cubic yards of the ambient air of morn' and bathe his temples in the cool refresh ing zephyr. If, however, his Excellency, havingarkened to the importunity of his attendant physician, was influenced to take the feverish pill and was hence constrained to remain passive, then the dispatch should have so stated, and so remove the enwring doubt and suspicion that fills the public breast. We do not think that the Associated Press should trifle with the feelings of a great people by taking just enough to kindle our liveliest fears and leaving us to nurse our keen apprehensions. When Louis XIV. took medicine the fact was well known to his whole court yesterday morning and had just a solitary call, but expected an encounter with a newspaper man in the afternoon: Such is the substance of a New York dispatch of yesterday. Now we submit that the associated press must do better than this. That dispatch cost us somewhere in the neighborhood of fifty cents and still it does not satisfy the craving anxiety of the subjects of His Solitary Highness. THE CITY.

New Advertisements.

F. A. BROWN, the pioneer jeweler, re-
ceived yesterday a consignment of heavy fall
and winter goods. Call and see them.

Mr. S. H. HEWES has just received a consign-
ment of Edwin C. Burt's extra fine ladies'
shoes.

Prof. S. R. Mendoza announces elsewhere
that he offers twenty-five per cent at a great
sacrifice.

Books.

The Pacific Wagon Company have
just received a car load of buggies.

A slight sprinkle of rain occurred last
night, beginning about 11 o'clock.

Attention is called to the card of Mr.
Wenbigler & Co. among our preferred
locals.

A vag and tan No. 3 was before Justice Adams to-day. Justice Fisher's bar
was quiet.

An interesting communication from
our correspondent at Anaheim will ap-
pear to-morrow.

An unusual number of people from
Downey, Artesia, Anaheim and Santa
Ana were in the city yesterday.

A desirable house and lot near Temple
street are offered for sale on easy pay-
ments in the "want" column.

Siegel, the jeweler, has a new
style of hat called the "Ecstasy." Is it
because it makes a man look light headed?

A brother of Mrs. T. L. Roberts of
this city, will arrive here to-day from
Red Oak, Iowa, to remain permanently.

A popular milkman reported to an
inquirer after the fact, that "milk will
be pleistered after the rainy season sets
in."

maker, has removed from 33 Main street
to Mr. C. L. Fisher's store, 26 Spring
street.

General P. Banning is having an ele-
gant new office built at the end of the
wharf, which will be completed in about
a week.

A dead dog has been pleading odor-
ously for the past few days to be re-
moved from Alameda street, opposite the
old depot.

Piles upon piles of boxes and other
parcels in front of our wholesale
houses on Los Angeles street indicate a
large wholesale business.

Action sale of lots fronting on Ocean
Park avenue, at Willowdale City, the new
seaside summer resort, October 19, 1882.
Special train at 9:30 A.M.

El Monte will be captured by the Re-
publican county candidates this evening.
They will appear in force and make
some interesting speeches.

A number of fair ladies can be seen
daily on horseback, trailing along our
business streets, evidently preparing for
the lively competition next week.

Attention is called to a hole about two
feet square in the sewer on New Los
Angeles street near First, from which
emits a stench that is sometimes intolerable.

Very favorable inducements are of-
fered for the next few days at the City
of Berlin store. Dry goods, millinery
and fancy goods are sold at bankrupt
prices.

The weather has lately been consider-
ably cooler at San Pedro and Wilming-
ton, some residents of those places even
complaining of numb fingers and shiv-
ering frames.

Mechanics and laborers of every kind
have no difficulty in finding employ-
ment in the city, at good wages. It is hoped
and believed that this state of business
will long continue.

The procession at present in search
of rooms in this city would require
twenty-four hours to pass a giving point
if there should happen to be any vacant
rooms in the vicinity of said point.

Capital is taking solid steps on Los
Angeles street, and many an unshod and
shorn tenant is stepping down and out to give place to substan-
tial and permanent improvements.

The crowds who gather daily to see
the wonderful Automatic City is the
best evidence of its merit. Go to 14
Main street, next to W. W. and S. A.
Widney's, and see how it is for yourself.

Mr. R. M. Widney is cutting down
the grade of his Olive street lots be-
tween Fourth and Fifth streets, to con-
form with the grade of Olive street,
preparatory to placing them on the
market.

Mr. R. B. Young is building a resi-
dence for Mr. Froehlich, lately from
Chicago, on Hill street. Mr. Froehlich
came here for the benefit of his health
and has concluded to remain per-
manently.

The Pennsylvanians are looking one
another up. The young Keystones are
saving up their "leaps" and "flops" to
have a big jollification on the occasion
of Penn's discovery of the red men,
"these can safely waver."

Mr. J. M. Thorneburgh, a cabinet
maker of this city, has just received
letters patent for his ingenious inven-
tion of a rule and level, which bids fair
to speedily supersede the appliances now
in use for those purposes.

Over a pile of debris on Los Angeles
street, near J. W. Calkins', some wag
has placed a headboard bearing this
legend: "Sacred to the memory of Chas.
Forbes." Near by is another pile—a
pile of sand. No telling who lies there.

It is rumored that the detectives have
a clue which, if properly followed up, is
likely to find the man who got away
with Covarrubias' team and rockaway.
It is hoped by his friends that the gen-
tleman may speedily recover his stolen
property.

Some of our residents were disturbed
from their dreams Sunday morning
about two o'clock by an earthquake
shock. Reports from other points re-
port a similar state of affairs. The San
Diego Union complains of being consid-
erably jolted.

The Hollister tent has been removed
to Downey, where it will be reset. The
tent will continue meetings here occa-
sionally, and will be removed to Fort
Street, between Spring and Fort.
Meeting every night this week, begin-
ning at 7:30 o'clock.

Mr. R. B. Young has secured the
contract for the erection of a double house
on Temple street, to cost \$5500, for Mr.
David Harris, of Fort Street. Mr. David
has a large estate in Los Angeles and
Devereux, Colorado, and has already in-
vested considerable sums in real estate
here and is satisfied that the future out-
look is very encouraging.

A gentleman lately arrived from the
oil wells reports that the recently-dis-
covered well has a constant flow of 100
barrels per day. Another well, which
had better promises, was discovered last
week, which flows occasionally to a
height of 100 feet above the ground.
There is now a continuous belt of oil
wells reaching from Pico to Ventura, a
distance of 50 miles.

HITTING THE PIPE.

A Times Reporter in the Intricacies
of an Opium Den.

The Drug—How it is Prepared—The "Friends"
and their "Day-out"—How it Affects
One—The Sold Out Boxes.

A TIMES reporter on Monday under a
roving commission, captured the follow-
ing item: In making up this account
the reporter had to "catch on" to de-
tails wherever he could, and jot down
detached facts in a conglomerate and
most unorthodox way. Let some reader
go into a den and find out how it is
himself. The reporter once inside, and
the smokers satisfied that they will not
be given away, they overcome and smother
(figuratively) the seeker after
knowledge with volunteered information.

The drug which is smoked is not
opium as it is gathered after exuding
from the poppy head or seed capsule. It
is an extract of opium called "chando."

This is a soft, waxy substance,
described heretofore, and is made up into
pills a little larger than a pea and ro-
asted over a lamp before smoking.

Smokers here call the substance "hop,"
in Chinese, "hop-en-ya." Smoking
they designate as

"HITTING THE PIPE A LUCK."

Smokers speak of each other as "hop
fiends." "Yentok" is the wire
used for cooking the "hop" over a lamp
preparatory for smoking. The lamp is
called "yenong," and burns nut-oil.

The substance of which the pipe is
made is quite resembles the sticks of
incense.

It is some sort of clay
and combustible of high
quality.

The stem is over an inch in diameter,

eighteen inches long and is called a
"spoon." The bowl is a small
cup-shaped hollow.

Mr. J. N. Gregory has purchased the
hall of the Union Hall, the fruit
of which is the hall before the
Democrats had secured the hall before-
hand, hence the Republicans were com-
pelled to move out and meet at the
Army. Nothing of importance was done
at the Republican meeting. The Demo-
crats organized a club at Union Hall.

ACCIDENT TO A GUNSMITH.

E. Reebe, who was shot by the
accidental discharge of a firearm he was this

morning repairing, was not so badly in-
jured as was at first feared.

The ball, a small one, passed through the flesh
between the first and second fingers at
their junction, without injury to the
bones. Dr. Grissom is attending him,

and the patient was doing as well as

could be expected at 7 o'clock last even-
ing.

BORN.

EDWARD—In this city, Oct. 10, 1882, to the
wife of John Bowers, a boy.

COOPER—Los Angeles, Oct. 9, to the
wife of H. H. Cooper, a son.

DIED.

HAMILTON—In this city, Oct. 10, 1882,
Edward V. Hamilton, aged 65 years, a
native of New York, died on Saturday
evening, after a short illness of six days, at
the home of G. Hamilton and Anna O'Neill.

No. 8 BIRMINGHAM Terrace, at 9 o'clock this morn-
ing.

CHARLES.

J. W. BETHOLM, from the neighborhood
of Downey, was in the city yesterday.

E. H. MORSE, banker, San Bernardino,
is registered at the Cosmopolitan.

SMITH HARRIS, a popular grocerian of
Los Angeles, was in the city Monday
buying goods.

H. H. COOPER, of the Western Union
Telegraph office, is the father of a
bonnie boy.
